2 Mr. Janopakari Doddanna's petition dated the3rd November 1914 to the Dewan stating that his application to the Municipal Council for a license to erect a series of shops to the west of his free school with ornamental frontages has been rejected and praying that as the rent realized from the proposed shops is intended for the maintenance of the school the license applied for may be granted The shops will be built at a large cost and being ornamental will not mar the appearance of the building

---

(/) Mr Doddanna's application was considered by the City Improvement Committee who were of opinion that having regard to the numerous improvements in contemplation he should not be allowed to construct more shops in the locality This being reported to Government, the President of the Municipal Council was informed that necessary action might be taken under Section 96 of the Municipal regulation The matter was not placed before the Municipal Council under this Section

Mr. Doddanna might have under Section 96 Cl. (4) exercised his right to build as he did not receive any intimation from the Municipal Council.

(2) The Municipal Council now have the power of prohibiting construction within municipal limits.

(3) Mr. Doddanna was given land not with the object of enabling him to build shops so that the school may have a larger income but that it might have a sufficiently spacious compound for future extensions Having regard to the decided opinion of the City Improvement Committee in the matter it does not seem ~~to be~~ desirable to give the permission

(4) I shall if approved, see the President of the Municipal Council and the Inspector General of Education and ascertain ~~if per-~~ whether we may help Mr. Doddanna's ~~mission be given~~ Delay in some way without detriment to the future development of the institution or the improvement of the Market square

Copy of Vice President's Memo dated 7-12-1914.

In April 1913, Mr. Janopakari Doddanna Setty applied for a licence to build a line of shops on the westside of his school compound and submitted plans therefor.

2. In July 1913, he submitted also ground plans of the site proposed to be built upon with measurements etc, on his having been asked to do so by the Municipality.

3. When the application and the plans were referred to the Health Officer and the Municipal Engineer for opinion, both the Officers remarked that the proposed line of shops would disfigure the road. Then the question was referred to the Municipal City Improvement Committee for orders with the observation that a general scheme of improvement for that part of the City was under contemplation and that, pending final decision as to the improvements to be effected in the market square and its neighbourhood, no permission could be granted to build shops in the compound of the School as proposed. In the meantime, Mr. Doddanna Setty was informed by means of an endorsement that the question of issuing licence for building shops on the site referred to had to be approved by the Municipal Council and sanctioned by Government and that he should not start building work before obtaining the necessary licence.

4. On the 29th August 1913, the Municipal City Improvement Committee passed the following resolution.

" The Committee are strongly of opinion that no new shops should be allowed to be constructed in this locality. A general scheme of improvement for this part of the City is under contemplation under which the market square and its neighbourhood will become the centre, from which all roads will radiate. The construction of shops as proposed will disfigure and spoil the effect of proposed improvements"

A copy

A copy of the above resolution was sent to Mr. Doddanna Setty for information and it was also forwarded to Government for approval. Government in reply directed that necessary action might be taken under the provisions of section 96 of the Municipal Regulation.

5. On the 4th November 1914, the Director of Industries and Commerce in Mysore, addressed a communication to this office suggesting certain modifications in the proposed shops so as to make provision in the upper storey for the Industrial School for which extra accommodation was needed as also to set back the shops some 20 feet from the compound wall and inviting the views of the Municipal Council on the subject.

6. The reconstituted City Improvement Committee to whom the above communication was referred for opinion, resolved at their meeting of the 18th November 1914 that no buildings of any kind should be permitted to be constructed between Mr Doddanna's Hall the Power House and the Victoria Hospital, that and that open space should be maintained between the above buildings, and that the shops wanted might be placed on the other side facing the Kalasipalyam road.

7. Mr. Doddanna Setty having now appealed to Government in the matter, they have sent in his petition to this office for suggestions in regard to his request for a license to build a series of ornamental shops to the west of his free school.

The question has been placed before the Municipal Council for their disposal.

My Dear Sir

With reference to your D.O. letter No.4333/M1. dated the 30th November 1914 forwarding for suggestions Mr. Deddanna Setty's petition praying for the grant of a license to build a line of shops to the west of his free school, I send herewith for your information, copy of an office note by the Vice President, narrating in detail how the proposal of Mr. Deddanna Setty to construct the shops in question was dealt with from the commencement, first by the Health Officer and the Municipal Engineer, then by the Municipal City Improvement Committee and thirdly by the reconstituted City Improvement Committee.

2. As proposed by Mr. Chatterton the Director of Industries and Commerce, who urged on behalf of Mr. Deddanna Setty the necessity for the construction of the shops to provide additional accommodation for the Industrial School, the question will be placed before the Municipal Council for an expression of their views at the next

SIR,

In reply to your memo No. 4798/Pl. 77-14 dated the 18th December 1911 requesting that the final decision of the Municipal Council on Mr. Janopakari Doddanna Setti's petition praying that he may be permitted to build a row of shops facing the Fort Centre road from the market square to the Fort Gate may be intimated to Government, I have the honor to state that as early as 18-7-1913 Mr. Doddanna Setti made a similar application, which went up before the Municipal City Improvement Committee for their opinion. After inspection of the spot and protracted discussion, the Municipal City Improvement Committee were of opinion that no structures of this nature should be allowed to be constructed in this locality, as they not only disfigured the area but would clash with the projected improvement of the neighbourhood.

2. On the 4th November 1914, the Director of Industries and Commerce addressed the Municipal Council on this subject suggesting certain modifications and enquiring if these fell in with the proposed improvement of the area.

3. The reconstituted City Improvement Committee considered the proposed modifications and resolved at their meeting held on the 18th November 1914 that no building of any kind should be permitted in the suggested locality

4. The entire question as well as Mr Doddanna setti s petition of the 3rd November 1914 to Government was carefully considered by the City Municipal Council at their meeting of the 30th January 1915 and, after more than an hour's discussion, they resolved that the recommendations of the two City Improvement Committees should be adopted, copy of which resolution together with those of two City Improvement Committees are herein enclosed.

5. The City Municipal Council have considered the question from all points of view, with every sympathy for the aims and objects that Mr Janopakari Doddanna Setti has at heart But they cannot sacrifice the aesthetic aspect as well as sanitation of what bids fair to be the most important and crowded area in the City particularly when alternatives exist which do not involve such sacrifice but which Mr Doddanna Setti will not avail himself of

6. The Municipal Council, in the past, have given over one of their most valuable pieces of land to Mr. Doddanna Setti, for the laudable work in which he is engaged and it hardly seems appropriate for him to insist on putting up shops for rent-farming purposes in a place which the Municipal Council would desire to be kept open. All bodies that have anything to do with the improvement of the City hold this view and I am in perfect agreement with them.

I have the honor to be
Sir
Your most obedient servant
